

SUMMA OPENS A CUSTOMER EXPERIENCE CENTER IN BANGKOK, THAILAND

SUMMA PRESS RELEASE / FOR IMMEDIATE RELEASE

08/12/2017

Summa's distributor, Phaisankij (PSK) Engineering Company Limited has recently opened a Summa Customer Experience Center in Thailand in partnership with All About Print, featuring a Summa F Series F1330. The grand format flatbed cutting table, with a working area of 129 x 305 cm, is now available for demonstrations and to provide cutting services for the Thai market.

Summa is always looking for opportunities to expand, support and invest into its distributor network. Summa takes pride in their distributor network as it is the face of Summa. It is thus with great pleasure that Summa announces PSK Engineering and All About Print joined forces to better support their customers with a Summa Customer Experience Center. The facility is completely equipped to serve current and future Summa customers to their fullest desires. Nearby the capital of Thailand, Bangkok, Summa's latest grand format F1330 is installed, including all Summa modules and tools available. Summa's F1330 will cut applications or designs made of material ranging from cardboard, roll material, synthetic material, foamboard, wood and even special material, such as magnetic and rubber. The knowledge and skill of PSK Engineering, combined with the quality of Summa's cutting and finishing machinery, manufactured with more than 30 years of experience, will give the customer full support in their path to success.

Customers' professional designs, as well as the designs of the customers' clients, will be processed with legendary performance of a Summa product. The Summa certified members of the PSK Engineering workforce will test and cut the customers material with the Summa F Series F1330, the flatbed best fit for the job. The Summa F Series' user-friendliness, productivity options, speed, etc..., in combination with PSK Engineering's supreme service and drive to support customers with their needs can all be found within this Summa Customer Experience Center.

Summa is proud of its growing success in Asia and inspires all distributors to keep this forward motion going. The Summa Customer Experience Center of PSK Engineering in Thailand is a milestone for Summa in Asia. Summa will continue to invest into the growing market of Asia.

Visit the first Summa distributor of Thailand at the Sign Asia Expo 2017!

The Summa distributor, Phaisankij Engineering Company Limited, alongside some Summa colleagues, will be present at the Sign Asia Expo 2017. The exhibition takes place at Impact, Thailand, from the 9th until the 12th of November. Summa encourages everyone to pay a visit to their booth.
